Nick,

Understood. Is Jackson included or not?

Mark, please make sure I am copied on your daily updates so I can include that info in our Sit Rep for us. The one below is perfect, number of targets and area and any detections.

Also, the TCEQ has informed me that we will not need to fly any targets between Nueces County to Jackson County.

Subject: 2 Sept 2017 -- ASPECT update 1 -- 0730

The proposed primary ASPECT mission for 2 Sept 2017 (Flight 9) will be to continue to monitor the situation at the Arkema facility. This will consist of periodic (30 minutes) sweeps of the facility. Once completed the aircraft will resume rapid needs assessment at provided target west and south of the facility.

ASPECT completed about ½ of zone 5 (Crosby to Huffman) consisting of approximately 39 target points. The system has also been assigned targets in Zone 6 (Crosby down to Baytown) consisting of 49 targets.

ASPECT is preparing for flight 9 with a follow-on flight 10 consisting of Arkema and zones east of Crosby. Data has been uploaded to the ftp site up through flight 6. Flight 7 is expected to be sent this morning.
